

JACKSON TENNIS CLUB

2019 COURT RULES AND GUIDELINES

1. CLAY COURT TENNIS SHOES ARE REQUIRED. The soles on many other shoes have a deep or aggressive tread that will damage the clay court surface. Running shoes, basketball shoes, work boots, any shoes with lugged or deep tread or a separate heel are not allowed. If you observe someone using damaging shoes, stop the play and bring this to their attention.
2. STAY OFF WET COURTS. Allow the courts to dry properly after a rain. To test the courts, press the fleshy part of your thumb into the court. If it presses into the court, in the slightest, stay off the court. Severe damage will result from playing on a wet court.
3. Shirts are required attire.
4. Always sweep the court and lines after playing, including the practice court, unless the court has become wet from rain.
5. No profanity. There are children living within earshot.
6. Do not leave food or food containers in the trash. This attracts bears. Remember, you are in the mountains and bears are nearby. Carry out your food trash.
7. If you have a guest, follow the guest rules on the bulletin board and in the clubhouse. The guest fee is \$10.00. Any one person is allowed to play six times per season.
8. When you leave, check all doors, including the clubhouse door, and ball machine enclosure to be sure they are locked.
9. If using the ball machine when the other court is in use, locate the machine and yourself so that you are aiming your shots into the far corner, away from the other court. A flood of stray balls in the other court would be very bad etiquette.
10. If rain begins, get the ball machine out of the rain quickly. It has sensitive electronics inside.
